Dear Chief Executive,

Early Vaccination for All

Thank you for your letter of 31 May. At the British Chamber of Commerce, we are fully supportive of the campaign to encourage vaccination in Hong Kong and have joined a number of initiatives to this effect. We have circulated your letter to all our members and have encouraged them to consider the matters you have raised and to adopt appropriate measures to help increase the vaccination rate. I am also pleased to report that a number of our members have already introduced some measures.

We believe that vaccination will increasingly be integral to allowing borders to reopen, enabling the return to an improved and sustainable business environment as quickly and as safely as possible. It is a vital step in helping Hong Kong to reconnect with the international business community. We acknowledge that business, in addition to Government, has an important role to play in this.

We look forward to continuing to work with Government in these regards.

Yours sincerely,

Peter Burnett
Chairman
The British Chamber of Commerce in Hong Kong
