

### **Overview:**

One of the purposes of the Chamber to give back to our community. The intention behind our community outreach initiative is to foster relationships and support the local Hong Kong NGOs, in particular, those that are contributing to the Hong Kong community.

We aim to do this by helping to **raise awareness, advocate**, support with **resources** to enhance and strengthen the NGO partners, and to build a **community** of Chamber members that are **giving back** and supporting a good cause. As a Chamber, we can also help to bridge connections between for-profit and not-for-profit organisations.

As we develop a calendar of activities, we will encourage all our members to participate and take advantage of the opportunities to join our community outreach programmes that will support the local NGO community.

Not looking to replace what individual member companies do, but supplement that and provide additional opportunities for individual members (and corporates as necessary).

**Partnership:**

The Chamber is delighted to announce that we have partnered with HandsOn Hong Kong. This partnership is integral to the success of our Community Outreach programme that we launched earlier this year. The Chamber is committed to supporting the local NGO community in Hong Kong and to provide our members with an opportunity to give back and help those in need.

**How you can get involved:**

The BritCham & HandsOn Hong Kong platform allows you to explore and sign-up for a variety of volunteering opportunities either individually or as a team. If you are interested in volunteering, please visit our page on HandsOn Hong Kong and [create your account.](#)

This is just the start of our journey. We look forward to working with HandsOn Hong Kong and the broader Chamber community to make a difference to those in need.
