Ethics and Governance in the Age of AI and Digital

Economy

In today's rapidly evolving digital landscape, the integration of artificial intelligence (AI) and the growth of the digital economy have transformed the way we live, work, and interact. However, as this technology becomes increasingly pervasive, it raises important ethical considerations and challenges for governance. The webinar will delve into the ethical implications and governance considerations arising from the integration of AI and the digital economy in Hong Kong. It recognises the need to ensure transparency, fairness, and accountability in AI systems. Through expert presentations and interactive discussions, this webinar equips participants with insights into the ethical principles and governance mechanisms necessary to navigate the evolving digital landscape responsibly.

Join us for the first webinar in the series, "Ethics and Governance in the Age of AI and Digital Economy," to explore the ethical challenges and governance solutions that will shape a responsible and inclusive digital future in Hong Kong.
